Deepika P.S

Full Stack Developer (MERN) | Building Scalable & Responsive Web Applications with RESTful APIs
Thiruvananthapuram, Kerala, India

Summary

Life is like coding: unpredictable, challenging, and deeply rewarding. Each error teaches patience; every debug leads to growth.

From civil engineering to coding, my journey has been one of curiosity and reinvention. Within the first 7 months of my career, I was honored to win awards twice. These wins motivated me to pursue a path where creativity meets logic: Web Development.

Today, as a self-taught , I thrive on building scalable, user-centric applications.

- Frontend: HTML, CSS, JavaScript, Bootstrap, Tailwind CSS, EJS
- Backend: Node.js, Express.js, RESTful APIs
- Database: MongoDB
- Languages: JavaScript, Java, C

Building responsive, intuitive web applications that elevate user experience.

Crafting seamless RESTful API integrations to connect systems.
Optimizing performance with advanced Data Structures and Algorithms (DSA).

E-Commerce Platform:

Designed and developed a full-stack application featuring user authentication, product search, and a dynamic shopping cart.

Open Source Contributions:

Actively sharing innovative ideas and collaborating with global developers on GitHub.

When I'm not coding, you'll find me experimenting in the kitchen or diving into a great book.

:

"Embrace change, learn relentlessly, and create boldly."

Experience

Brototype

Mern Stack Developer

June 2024 - Present (2 years 2 months)

Dynamic MERN Stack Developer with a strong foundation in building full-stack web applications. Proficient in crafting responsive user interfaces with React.js and developing robust server-side logic and RESTful APIs using Node.js and Express.js. Experienced in managing data with MongoDB and leveraging Git/GitHub for version control. Possessing excellent problem-solving and collaboration skills, and eager to contribute to innovative projects and a collaborative team environment.

SreeDhanya Homes PVT LTD

Site Engineer Trainee

September 2023 - March 2024 (7 months)

I got a campus placement at Sree Dhanya Homes Pvt. Ltd. as a Site Engineer Trainee. I was able to work on the dynamic and creative projects of Sree Dhanya Homes with over 7 months of hands-on experience in overseeing all aspects of civil engineering construction. As a site engineer, my duties included site supervision, planning, and coordination of on-site activities, ensuring all aspects of the project aligned with engineering and design specifications, industry standards, and construction regulations

IEDC LBSITW

Student Representative

January 2022 - June 2022 (6 months)

UNV India

V-force

November 2021 - January 2022 (3 months)

V-Force India is to encourage volunteerism by providing an opportunity for local volunteers to engage with United Nations and enable them to contribute to sustainable development.

International MUN

Official Campus Ambassador at International MUN

November 2021 - December 2021 (2 months)

Techfest, IIT Bombay

Campus Ambassador

October 2021 - November 2021 (2 months)

Insight For Innovation

1 year

Project Ganitham 2

September 2021 - October 2021 (2 months)

Leading a team of Teaching volunteers and mentors in Project Ganitham 3.0

Project Ganitham 1

November 2020 - October 2021 (1 year)

Worked as a teaching volunteer.

Education

LBS Institute of Technology for Women Poojappura

Bachelor of Technology , Civil Engineering · (January 2019 - June 2023)
