Top Skills

AngularJS

Full Stack Development with
Angular, Node.js, Express, and
MongoDB

Crafting robust and efficient backend
solutions using Node.js and Express

Abdul Malik

Full Stack Developer | Angular | Node.js | Typescript | MySQL |
MongoDB | Socket.io | GIT | NgRx
Trivandrum, Kerala, India

Summary

Passionate self-taught developer on a journey of continuous learning and growth. Proficient in a variety of technologies including Angular, JavaScript, Node.js, Express.js, TypeScript, MySQL, MongoDB, with a knack for architectural design and problem-solving.

In addition to my core skills, I have hands-on experience with advanced technologies and practices such as Socket.io, WebRTC, AWS. I am adept at implementing Clean and MVC architecture, managing cloud storage with S3, and version control using Git. My experience extends to integrating payment solutions with Razorpay, securing applications with JWT, managing state with NGRX in Angular applications, and testing APIs using Postman. I also work with Nodemailer for email functionality and utilize Tailwind CSS and Bootstrap CSS for creating responsive and visually appealing user interfaces.

My commitment to quality is reflected in my strong foundation in data structures and algorithms, which helps me develop efficient and scalable solutions. I thrive in environments that challenge me to apply my knowledge and skills to create impactful and innovative solutions.

Experience

Cordova Educational Solutions
Software Developer
July 2025 - Present (1 year 1 month)
Trivandrum

UFS Technologies Pvt Ltd
FullStack Developer
April 2025 - June 2025 (3 months)
Kochi, Kerala, India

Prototype
Full Stack Engineer
September 2023 - April 2025 (1 year 8 months)
